

EXPERIENCE

JUN '20 - MAY '23

Software Engineer | Kodak Alaris

- Worked on an agile team utilizing two week sprints with tracked tickets in Jira.
- Developed and maintained new website features with React.js based on UI/UX Figma wireframes to support various photo products.
- Built an internal tool using JavaScript for marketing to easily push their promotions.
- Created Storybook components and implemented them into our site for cleaner and less repetitive code.
- Deployed builds using Azure pipelines for our tools and website.
- Assisted the hiring team to develop the onboarding process for new team members.
- Provided mentorship to new hires to strengthen our team and create a positive and inclusive work environment.

MAY '19 - AUG '19

Software Engineering Intern | Kodak Alaris

- Programmed a feature using CSS3D where users could edit their photos to fit various products and then preview a fully rotatable 3D render.
- QA tested backend API calls using Katalon.

JAN '12 - MAY '19

Senior Instructor | Master Kim's Taekwondo Institute

- 4th degree black belt with 12 years of training.
- Led and educated a team of instructors in order to strengthen their knowledge and provide a positive environment for the students to learn.
- Handled customer-facing transactions for products and classes.
